The Emporia News.

THURSDAY, SEPTEMBER 8, 1881.

Quite a number of our young folks will attend the State Fair.
Has anybody seen the "wet moon" prophet? He is wanted in this vicinity.
A commission as notary public has been granted to P. P. Hillerman, of Emporia.
The red and blue postage stamp idiosyncrasy is being given vent in Emporia.
We would like to know what has become of our Hartford correspondent, "By Jingo."
John Hammond has secured the contract for building a vegetable hall at the fair grounds.
Papers are ripe, and are almost as sweet as the pretty girls or candidates for office.
The "Tater question" staves us in the face with serious aspect. You can buy a bushel of little ones for \$1.60.
Nick Lockerman has finished cutting his corn and thinks the yield will be much better this year than last.
Messrs. Condit and Bond, of Kansas City, are in the city putting in the Rutn ka heaters at the Constitution street school house.
Persons having school work for exhibition at the county fair are requested to leave it at the office of County Superintendent Wharton.
El. Holderman has returned from his lake trip and is now with his brother at Morris, Ill. His health has improved since leaving Emporia.

J. H. Davies' "Jayhawk" was put on the case for the Blackhawk Fair Friday. We trust he will "get there" in the language of the turf.
Robt. Milliken last off the ground for the wigwam to be erected for the soldiers' reunion and the State Sunday school convention, Friday.
The shooting party that returned to Greenwood county on Wednesday returned Thursday. They killed about sixty birds and had a good time.
The Emporia chorus voted last week to aid the soldiers' reunion, to be held in this city in October, and will prepare a number of war melodies for that occasion.
The Emporia Gas Company are receiving bids for the construction of the works in this city, and they will be opened and considered about the 10th of the present month.
The committee having the matter in charge have overruled the bids, to light with the electric light the new tabernacle or wigwam which is in process of construction in this city.
John L. Jones and Nellie Jones were married at the residence of Dr. W. H. H. Jones, pastor of the West Congregational church of this city.

The following school districts which have not yet reported to the county clerk are requested to do so at the earliest possible moment: 6, 22, 23, 27, 47, 56, 57, 68, 70, 71, 84, 88, 91.
The cast of the Union Spy was arranged at a meeting of the Emporia Rifles last evening, and the first rehearsal will take place to-morrow evening under the direction of Capt. Tenney.
Forty veterans have already registered for the State Soldiers' reunion to be held at Topeka, beginning the 15th of the present month, and it is thought this number will be more than doubled.
The first annual fair of the Bourbon County Fair Association will be held in October this year from the 15th to the 21st. A reunion of old soldiers and a competitive military drill will be among the features of the occasion.
Judge Graves, in the case of Edward McGraw, overruled all motions for his release in the district court of Coffey county, last week, and the prisoner was brought back to Emporia by H. F. Toimaker and lodged in jail on a bond of \$1,000.

Dr. R. B. Welch, P. J. Carmichael, B. T. Davis, J. H. Hill, N. W. Sonnen-decker, W. F. McMahon and A. A. Wells have been appointed by the county superintendent a committee to prepare a course of study for use in the schools of Lyon county.
Hartford Call: R. T. Swedler, who has been so long and prominently connected with the sheep interests of this county, has retired from the business and will probably take up his residence in Hartford. In what business he will engage has not transpired.
The Santa Fe has agreed to furnish half rates to all parties living within a hundred miles of Emporia who may desire to attend the State Sunday School Convention, to be held at this place in October. For all distances over one hundred miles the round fare will be \$4.00.
An operation was successfully performed Thursday afternoon upon David Davis, the young man who crushed his ankle by falling off a horse that day. The foot was amputated a short distance above the ankle and the unfortunate sufferer is doing as well as could be expected today.

Eighteen years ago, on August 23d, 1863, quite a heavy frost fell in many places in central and northern Kansas. It was the earliest frost that has ever been known in Kansas since its settlement. It may not be necessary to remark that it was not a very heavy frost.
I. D. Fox & Co. sold four high priced places last week, the purchasers being Mr. Filkins, the Henning brothers, J. C. Burnett and W. E. Sprout. In spite of the drought and dull times Emporia, Fox & Co. state that their trade in this line is steadily increasing and that they are able to get the goods in as fast as they are sold.
We learn that a number of information have been filed in the district court against parties charged with violating the liquor law. There is no doubt that a good deal of surreptitious whisky selling is going on in this city, and all friends of temperance should stand by the prosecuting attorney in his efforts to bring transgressors of the law to justice.
We learn that an arrangement has been consummated by which the water works will be permitted to remain where they are until spring. What will be done then has not yet been fully determined. The city council are trying to do something to get the water works out of the hands of the present owners, and will exercise great care that the steps they take in this matter will not have to be retraced.

Dr. Northington has received a letter from a relative in North Carolina, in which a deplorable condition of affairs is stated as depicted. The writer desires to sell his land that he may immigrate to Kansas, but he finds no purchaser for his land, and he is unable to invest anything in property there.
In addition to the usual political and moral blights with which this region is afflicted the drought has this year, as elsewhere, parched and dried up almost everything. Marshal Lewis brought into our office yesterday a specimen of a piece of soil from his place on the Neosho, east of Emporia, which is a caution to unbelievers in the ability of Kansas to raise corn. The corn was planted on the 25th of last May, and the stalks shown to us are fourteen feet high. They have several courses of very well developed corn, and the field will average well.

For the speedy cure of consumption and all diseases that lead to it, such as tubercles, coughs, lung disease, bronchitis, hay fever, asthma, pain in the side and chest, dry hacking coughs, tickling in the throat, hoarseness, sore throat and all chronic or lingering diseases, the most reliable and purest of all the remedies for indigestion, constipation, headache, neuralgia, sciatica, cumbaos, backache, cout, soreness, chest, sore throat, swellings, sprains, frosted feet, ears, scalds, general, doulty pains, tooth, ear and headache, and all pains of the aches.
It is sold by all druggists and dealers in medicine.
A. VOGEL & CO.,
Baltimore, Md., U. S. A.

Investment Securities
Savings Banks, Insurance Companies, Trusts, and all other securities, are offered for sale by the undersigned. He is also a broker in real estate, and is prepared to buy or sell any property on reasonable terms.
J. W. LUTHER & CO.,
St. Louis, Mo., U. S. A.

T. E. Gilbert, of Ivy, sends in some stalks of corn, the tallest of which measured fifteen feet. This growth was made after the 25th of May, and had it not been for the dry weather the field of 24 acres would probably have yielded 100 bushels to the acre. As it is the corn is good, and the yield will be very satisfactory for a "dry year." We hear of several fields which are estimated at from 40 to 75 bushels to the acre. A man needs but to travel a little to find out that we have much here yet to be thankful for.
The time of year has come, earlier this year than usual on account of the drought, when the destruction of fences, stacks of grain and hay and farm buildings by fire is daily reported. It is time for the greatest caution. Pipes, matches and rubbish fires should be carefully guarded. It is the part of wisdom to protect stacks and out-buildings by blowing a few farthings around them, so that if fire starts from any cause, the progress may be checked before destruction results. A few hours' work may save the products of a whole season's labor. Let the motto be: "Prevent fire."

Deaths.
Julia M., wife of Doctor James R. Lewis, died last week at the family residence on Constitution street, near First avenue, after an illness of several days from typhoid fever, at the age of twenty-four years. The funeral took place this afternoon at 2 o'clock.
Emma Jane, daughter of John Davies, died at her home on the corner of Dry creek, yesterday afternoon, at the age of 18 years. The cause of death was typhoid fever.
Christina Church Meeting.
A church meeting of the congregation of the Christian church was held last week to transact business which included the selecting of a pastor for the coming year. Upon taking a vote the present pastor, R. L. Lutz, was unanimously chosen to continue his services for the year. The condition of the church was found to be prosperous, and the congregation is growing in size and importance.
The public at large will be pleased to hear that Mr. Lutz has been continued another year. Since his arrival here on August 26, 1880, he has done very satisfactory work in his calling, and has made many friends by the faithful performance of his duties as a minister and as a citizen.

A Very Serious Accident.
While a young man named David Davis, in the employ of Col. Whitney, was riding through town Thursday on horseback with a wash-bowl in one hand, his horse began prancing when he reached the corner of the street, and he fell from his seat. He fell in such a position as to cause a compound fracture of the ankle, we believe, and upon taking him to the residence of Mrs. Condit, on the corner of the street, he was found by the attending physicians that amputation of the limb would be necessary, and that operation was to have been performed this afternoon. Mr. Davis was unmarried, and was a brother of the Davis who was killed by the falling of a derrick at Cottonwood Falls some time ago.

A New Enterprise.
Prof. Oval Pirkey, late president of Angell College, Ill., and now in this city instrumental in building up the Christian University at Canton, Mo., has been in the city for a week or so, with a view to establishing in our town a select literary, scientific and classical institute, in case sufficient encouragement is offered by our citizens. He represents to us that he is very much pleased with the city and the encouragement shown him, and that he has secured rooms and will open a school inside of thirty days. Besides the courses in natural history and the classics, a full course in commercial studies is contemplated; also a primary department will be opened. The school will be open to both gentlemen and ladies.
Prof. Pirkey left for Canton, Missouri, Friday, but will return shortly, when further announcements concerning his undertaking will be made.

COMMUNIST PROCEEDINGS.
A Proposition Confering Power to Sell Our M. & T. Stock to be Submitted to the People in November.
Board met in special session. All members present.
Messrs. Flickinger, Chas. Henshaw and J. V. Carter, were appointed to view a road on petition of J. W. B. Hewitt et al.
The board approved the appointment of the county superintendent of schools for appraising the west half of southeast quarter of section 10, township 18 N., range 10 W., and section 10, township 18 N., range 10 W., said appraisers being A. C. Sackett, D. W. Stanley and D. A. Stahl.
The board also took into consideration the advisability of making a proposition to the people at the regular election in November, for selling the stock now owned by Lyon county, in the M. & T. railroad company, and after careful consideration the board concluded to submit such a proposition to sell said stock at not less than 45 cents on the dollar, and to purchase the outstanding 7 per cent bonds of the county with the proceeds derived from such sale.
Board having no further business, adjourned. Wm. F. Ewing, Co. Clerk.

County Fair Superintendents.
The following is the list of superintendents of the various departments of our county fair, that has been held on the 5th and 6th days beginning September 20 and ending September 24:
Cattle—Dan King.
Horses—D. R. Holman.
Swine—W. T. Walters.
Poultry—J. B. Alexander.
Agricultural Implements—C. C. Farver.
Mechanic Arts—E. F. Sprague.
Farm Products—H. H. Gray.
Horticultural and Floral Department—W. B. Ross.
Fine Arts—Mrs. C. H. North.
Textile Fabrics—Mrs. J. F. Stratton.
Natural History—Mrs. L. E. Perley.
Honey—A. P. Kelley.
Children's Department—Mrs. J. C. Jones.
Ladies Equestrian and Specials—E. P. Bruner.
Educational Exhibit—O. B. Wharton.
Speed Ring—S. B. Warren.
General Superintendent of Floral Hall—T. P. Hall.

Regarding Professor Pirkey.
Ess. News: In answer to inquiries concerning the select school by Prof. Pirkey, I have to say that arrangements are made to open a first-class Commercial and English school, with a primary department attached, in the rooms formerly occupied by the Emporia High school, either on the 19th or 20th of the present month. We know Prof. Pirkey to be an experienced teacher in all the branches, and a gentleman of high standing in the community. It is a student of his for four years. Respectfully,
R. L. Lutz.

A Wonderful Discovery.
For the speedy cure of consumption and all diseases that lead to it, such as tubercles, coughs, lung disease, bronchitis, hay fever, asthma, pain in the side and chest, dry hacking coughs, tickling in the throat, hoarseness, sore throat and all chronic or lingering diseases, the most reliable and purest of all the remedies for indigestion, constipation, headache, neuralgia, sciatica, cumbaos, backache, cout, soreness, chest, sore throat, swellings, sprains, frosted feet, ears, scalds, general, doulty pains, tooth, ear and headache, and all pains of the aches.
It is sold by all druggists and dealers in medicine.

J. W. LUTHER & CO.,
St. Louis, Mo., U. S. A.

PERSONAL MENTION.
Mr. Frank Hall, son of T. P. Hall, is home from New Mexico on a short visit. Dr. Wm. Hill returned last week from Colorado, looking and feeling fine.
St. Woodruff, brakeman on freight No. 9, had his leg broken at Cottonwood Falls.
James Benson and family have gone to Butler county, to establish themselves upon a farm near Eldorado.
Our fellow townsman, G. W. Williams, Esq., has recently returned to Emporia from a tour of the State in Illinois. Sheriff Moon has made a good selection in appointing B. F. Rumsine his deputy, to succeed the late Jas. Spillman.
Mrs. Dunlap and Mrs. Walker, who have been visiting friends in this city for some weeks, returned to their homes in Ohio last week.
Miss Nellie Perry, assistant bookkeeper with Stevenson, Emery & Taft, of Topeka, is spending her vacation with Mr. and Mrs. Engineer Case, on Neosho street.
Winfield Courier: Judge J. Jay Buck, of Emporia, is in the city, a guest of Col. McKinley. Judge Buck is looking for an address during the temperance campaign.

Winfield Courier: Judge J. Jay Buck, of Emporia, is in the city, a guest of Col. McKinley. Judge Buck is looking for an address during the temperance campaign.
H. W. McCreary, of the Emporia Ledger, returned Thursday from a visit of some weeks to his old home in Indiana. His mother, whose illness called him thence, is slowly improving.
Fian Irwin and James Hilton, who went west some weeks ago as guards in the employ of the Santa Fe company, have returned to Emporia. Mr. Hilton will resume his position at the Santa Fe depot.
Mr. R. M. Mills returned from a visit of some weeks to his old home in Indiana. His mother, whose illness called him thence, is slowly improving.
Fian Irwin and James Hilton, who went west some weeks ago as guards in the employ of the Santa Fe company, have returned to Emporia. Mr. Hilton will resume his position at the Santa Fe depot.
Ton Flynn, formerly messenger for the Western Union telegraph company at this place, but lately operator at Reading, has been transferred to Cottonwood. As this is the nature of a promotion, we congratulate Ton on his good fortune.
Newton Republican: Rev. Dr. Cordley, of Emporia, addressed the members of the Sunday school convention at the Opera House last Wednesday evening. He had a large audience, and he fully sustained his reputation as a strong, forcible and an entertaining speaker.

Mr. Jesse Peck, of Normal, Illinois, was in the city Thursday. He is making a tour of the State in Illinois, and is the Chicago & Alton railroad company, which is about to inaugurate a system of forest planting, as a means of supplying the future demands of that corporation for ties with which to extend its lines.
Mr. C. Mixer, who has been employed for some months past as operator at the train dispatcher's office of the Santa Fe, started last week for San Antonio, Texas, where he will hold a similar but a better position. During his stay in Emporia, he proved himself a gentleman in every sense of that term, and made many friends who regret his departure.
Mr. and Mrs. Jacob Stotter returned from a visit of five weeks among friends in West Virginia and Ohio, Thursday. They were accompanied by Mr. and Mrs. Thomas Murdock, who have been absent from Emporia for nearly a year. The entire party are in the best of health and are well satisfied to get back to Kansas.

Major Anderson promises the finest display the Plumber Club ever made. General Sheridan and Pope are returning to Colorado, and will undoubtedly be present at the reunion. Other notable army officers have also been invited.
The fireworks to be used during the sham battle, were shipped from Chicago, yesterday. The last embraces 200 dozen eight ball colored Roman candles, 10 dozen half pound colored stars, 500 No. 5 cannon fire crackers, 30 four inch shells, and 50 maroons and the mortars from which to fire them.
The organization of the members of the corps that marched with Sherman to the sea, was proposed to Capt. Geo. R. Peck, and the idea struck him so favorably that he at once took steps to see that the corps was organized. We know him personally as an honest man, a life-long Republican, a patriotic soldier, who carries the scars of wounds received in defense of his country in addition to all this he has the very best qualifications for the office. He deserves the unanimous support of the patriotic voters of Lyon county.

Frederick T. News.
TUESDAY, September 1st.
We are still suffering for the want of rain. Water is getting very scarce, especially near Cahola. The stock men here have brought most of their cattle to the Neosho river, so as to get water from our springs. Miss Sadie Stanley, daughter of Thomas Stanley, will soon be married to Mr. C. H. Carter, publisher of the Western Friend, of Kansas. The wedding will take place at the residence of Mr. Powell, a friend of the bridegroom, who has leased the place, bought most of the articles sold. We are truly sorry to lose Mr. and Mrs. Huggins from our neighborhood. They go from here to Ohio and from there to California. Mr. Powell, who has rented the place, is from New York, and has a very pleasant family. We hope he will succeed in our "sunny Kansas." Wm. Humphrey, of Cahola, considers himself the wealthiest man now in Kansas. It was the earliest frost that has ever been known in Kansas since its settlement. It may not be necessary to remark that it was not a very heavy frost.
I. D. Fox & Co. sold four high priced places last week, the purchasers being Mr. Filkins, the Henning brothers, J. C. Burnett and W. E. Sprout. In spite of the drought and dull times Emporia, Fox & Co. state that their trade in this line is steadily increasing and that they are able to get the goods in as fast as they are sold.

Notes of Travel.
Last Friday I boarded Lewis' train, Missouri Pacific, and rode all the way to America. There I boarded a buggy, drawn by two mules, and set sail for Fort Smith. Rev. Van Vorst was both engineer and fireman on the mile train. We made twenty miles in five hours, not very easy. The sun shone with August fury upon us, and the wind whistled the dust right into our faces. On our way we crossed Wright, Rock and Big John creeks; the Neosho near the mouth of Four Mile creek, then crossed the Neosho at a point four miles south of Council Grove. We also drove by the city of Dunlap.
Four miles heads up in the hills of Missouri, runs almost directly north and south. The land here is rocky hills press up closely to the creek on the south side. The creek is supported by springs and affords a good supply of stock water. The land here prevails, the crops all grow out doors and the people live on the commons. I think the people are about ready to fence. What was about a crop of early planted corn; it is a pleasing failure. I found some old friends here, J. C. Pickett and Wm. Johnson, and they are readers of THE NEWS.

To promote a vigorous growth of the hair use Parker's Hair Balm. It restores the youthful color to gray hair, removes dandruff, and cures itching of the scalp.
C. R. R.

THE ROYAL ST. JOHN
Sewing Machines.
Read what Plankinton & Armour, the great packing
house firm say when first buying
the Machine.
OFFICE OF PLANKINTON & ARMOUR,
Kansas City, Mo., March 6, 1880.
GENTLEMEN: We would say that we have been trying for nearly ten years
to get a sewing machine that would sew satisfactorily the heavy main bags for
hams. Have tried a number of machines, but until we tried the Royal St. John
we have never been able to get a machine that would make a long elastic stitch
without drawing the cloth. Your machine does the work perfectly, and by its
rapid motion and light running we are able to make on one machine about 1,000
stitches per day with ease to the operator. This we could not do on any other ma-
chine, although we have tried them thoroughly. We also regard it as the simplest, most
durable and lightest running machine we have ever tried. We have put it to the
severest test and freely recommend it.
PLANKINTON & ARMOUR, per Wm. F. Allcutt, Supt.

What they say after using it 18 months, which
would be equal to 3 hours a day for 15 years in ordi-
nary family use. No other Machine CAN SHOW
SUCH A RECORD. They use only the ordinary fam-
ily machine.
OFFICE OF PLANKINTON & ARMOUR,
Kansas City, Mo., April 25, 1880.
MESSRS. TRIMMELL, REYNOLDS & ALLEN, Gentlemen:—In answer to your
inquiry as to how we still like the ROYAL ST. JOHN Sewing Machine we
would say that after using them for some eighteen months, and making on an average of over half a million stitches on each machine,
or at the rate of 1,500 to 1,600 on each machine per day, we like them as well as
when we first bought them. Cannot see any perceptible wear, and of Sewing Ma-
chine that we have ever seen would have done the work as satisfactory and with
as little trouble and expense to us, not having come out of the factory with
PLANKINTON & ARMOUR, per Wm. F. Allcutt, Supt.

If you want the best Machine in the market call on
J. M. GRIFFITH & CO.,
Agents for the Royal St. John.
